

Company Information

Concept

President and CEO, NikkoInnovatia Co., Ltd.
 Hiroki Indo

Our company supports the market distribution and promotion of construction, civil engineering, and infrastructure-related technologies and products through certification acquisition support.

Even as industrial policies become increasingly complex in the future, we will continue to refine ourselves without neglecting self-improvement, always maintaining an ambitious spirit as we move forward. We appreciate your continued support.

May 1, 2019

Tokyo University Graduate School of Engineering Master's Degree (Master of Engineering), joined Aichi Prefecture after graduating from Waseda University Faculty of Science and Engineering, involved in legal affairs and construction management related to construction and disaster prevention (primarily landslides and river disasters)

Technical : Geotechnical/Soil Engineering

Specialization

Affiliated Organizations : Japan Society of Civil Engineers, New Space Strategy Institute (General Incorporated Association), Japan Association for International Security Trade (JAIST)

Guiding Principles

We :

- Recognize that our clients' technologies are created through hardship, and work with a sense of mission toward their further development

— never forget that our clients' technologies are important assets, and approach their utilization with respect

— Have a duty to meet society's expectations by constantly improving ourselves without neglecting self-discipline

— Dedicate ourselves to the glory and prosperity of society and nation through business expansion
